

2022

# FOREWORD

## KEY FIGURES

-  **19 700** registered students
-  **678** lecturers, researchers-lecturers and researchers
-  **582** people on the administrative staff
-  **6 departments and schools:** Faculty of Law and Political Science, Toulouse School of Economics -TSE, Toulouse School of Management – TSM, Faculty of Administration and Communication studies, Faculty of Computer science, IUT Rodez
-  **3 campuses in France:** Toulouse, Rodez and Montauban
-  **3 offshore locations:** Greece, Vanuatu, Vietnam

## Building an international university

Toulouse Capitole University can bank on its scientific excellence, its shared culture, its drive for top-ranking quality standards and its trust on « in-house » strengths. It is deeply committed to the reshuffling of an inclusive Toulouse university site relying on subsidiarity, international outreach and strong will to build the « University of Toulouse » together with the other institutions and research bodies of the site and in partnership with the Occitanie Region, Toulouse Metropole and the socio-economic partners.

One of the main missions of public higher education and especially of universities is to host students, to ensure their well-being, to upgrade their skills and competences and to help them integrate the job market. This means designing a well-adapted, inclusive and human education portfolio. Thanks to blended learning techniques and pedagogical innovation, our university can offer a high quality training suited to the students' learning rhythms and according to a more flexible academic year calendar, thus contributing to the success of a greater number of students. Besides, the training offer is going to be increased thanks to the development of international degrees, transdisciplinary double diplomas and professional diplomas.

One of the major assets of our university in disseminating knowledge and supporting teaching, learning or research are the university libraries whose funds boast outstanding resources. They are well-structured and managed by skilled librarians and library curators.

In July 2020, our University became a member of the « Engage EU » European University, which aims to provide an analysis and mapping of societal changes. The goal is to « build » the future together with six other leading European universities dedicated to academic excellence and the training of socially committed citizens.

Our university has succeeded in taking up the current challenges, in gathering and federating its community around a common culture and strength nurtured by the human dimension, hence the need for further strengthening the links between all its players and for fostering as many exchanges as possible.

The efforts and competences of our whole academic community should pave the way for the success of our project: taking UT Capitole to an even higher level of excellence and bringing back the Toulouse University site to the fore of excellence while trusting and respecting one another.

# RESEARCH

## A RESEARCH-INTENSIVE UNIVERSITY

Toulouse Capitole University is one of the leading research-focused universities with top-level researchers-lecturers praised for the quality of their work in law, economics and management.

It has become a university of reference both in France and abroad: UT Capitole is the first French higher education institution listed among the 2021 top 50 of the Shanghai Global Ranking of Academic Subjects “Social Sciences –Economics”. According to RePEC, Toulouse School of Economics ranks 10<sup>th</sup> in economics in the world and 3<sup>rd</sup> in microeconomics.

TSE has been awarded 23 ERC grants since their introduction in 2017.

## DEDICATED TO EXCELLENCE

The high scientific repute of UT Capitole research teams and its excellence-focused recruitment policy attract high-flying international scientific experts in their areas of study.

The tenure track model makes it possible for junior researchers-lecturers to gain permanent job positions after a 4 to 5 year limited duration contract and an assesment of the work achieved. This is particularly appealing to American researchers and 80% of TSE researchers come from abroad.

## SUPPORTING JUNIOR RESEARCHERS

UT Capitole is also very keen on providing the best working environment to its junior researchers.

It is one of the few French universities offering flexible tuition contracts (based on the scientific achievements over a three-year period maximum) to newly-hired researchers-lecturers. This initiative is aimed at supporting their efforts and valorizing their work at a very early stage (first three years) in their career.

## ASSISTING RESEARCH LABORATORIES

UT Capitole widely supports its research laboratories and teams in their research projects.

In this respect, the DR (Research Direction) plays a key role by providing them with technical support in filing applications or calls for projects.

Specific bonuses, adapted teaching loads and financial perks can also be awarded to performing researchers-lecturers.

Moreover the funding of research laboratories is also based on their scientific output in order to further promote excellence.

## VERBATIM

JEAN TIROLE, PROFESSOR OF ECONOMICS,  
NOBEL PRIZE OF ECONOMICS IN 2014

### “A research-focused working environment”

“The academic context of our research work is extremely important and the perfect environment offered by Toulouse Capitole University makes all the difference. We meet and work with researchers, PhD students and students from all nationalities, sharing common dedication to excellence and scientific accuracy. Greater attention is being given to students’ needs and multidisciplinary enables them to address issues from a number of different perspectives.”

## RESEARCH VALORIZATION

«Toulouse Capitole University supports researchers in the development and promotion of their research work.

- The organization of scientific events (symposiums, conferences, study days, etc.) is carried out by the laboratory managers with the support of the Research Department.
- The institutional archive «Toulouse Capitole Publications» allows researchers to distribute their work freely and without charge and to make it easily accessible to the entire scientific community. This service is offered by the Service Commun de la Documentation.
- The «Presses de l'Université Toulouse Capitole» publishes works intended for the university community - teachers, researchers, students - but also for a larger and more diverse public, eager to enrich their knowledge.
- The teacher-researchers also have the possibility of expressing themselves in the local or national media. The Communications Department supports them in this activity and also helps them communicate on social networks and websites.

## KEY FIGURES

- 12 research units  
4 joint research units (UMR)
- 559 researchers-lecturers and researchers
- 41 people on the staff assisting research  
(engineers, technicians, library and administrative staff)
- 200 conferences and congresses organized every year  
8 000 participants including  
2 000 foreign delegates
- 6 doctoral schools  
3 of them are co-accredited schools
- 70 PhD theses defended every year

# DOCUMENTARY RESOURCES

UT Capitole boasts vast documentary resources comprising 380 000 books et 730 journals, 220 000 e-books et 70 000 journals which are all available for on site or remote consulting.

The Arsenal and Manufacture des Tabacs libraries and learning centres, the Garrigou library and the Boutaric room, include many different working spaces ranging from individual offices to group work, training or reading rooms. Beyond the numerous multimedia facilities which are up to the latest university work standards, a wide portfolio of customized services has been designed to provide students and researchers-lecturers with appropriate documentary support.

A Language Resource Center (CRL) is located in the Arsenal library. Co-managed with the Department of Languages and Civilizations of the university, this multimedia space allows students to develop their language skills, by responding to professional and personal needs in a self-training approach.

## KEY FIGURES

- Open 73 hours a week,  
Arsenal library is open until 10pm  
on weekdays and until 8pm on Saturdays
- 4 university libraries, 2 of which are  
organized as learning centers, and an online  
digital library
- 1 402 000 entries per year
- Seating capacity: 1 162
- 80 people on the staff and  
42 students, instructors or tutors

# EDUCATION

Toulouse Capitole is praised for the quality of the courses on offer in economics, management, law, mathematics, computing, foreign languages and information and communication science.

## AN EDUCATION OFFER ACCESSIBLE TO THE LARGEST NUMBER

More than **64** national degrees and **58** university diplomas or preparatory courses to competitive exams are on offer at UT Capitole. Among the 21 000 students enrolled in 2017-2018, 37% were grant holders.

Concerned about equal opportunities and the integration of its students, UT Capitole mobilizes two dedicated common services: **the Open and Distance Learning Service (FOAD) and the Continuing Education, Prior Learning Assessment and Apprenticeship Service (FCV2A)**. The former welcomes students who are unable to follow a traditional course of study, while the latter develops the institution's work-study training offer. Thus, UT Capitole students have access to license and master's courses in FOAD and 2nd year BUT courses, 3rd year licenses, professional licenses as well as masters organized in alternation.

Beyond that, FCV2A and FOAD are **actors of the continuing education offer** within UT Capitole by proposing a diploma training offer compatible with the pursuit of a professional activity. This activity is completed, as far as the FCV2A is concerned, by a training offer, not leading to a diploma, centered on the **development of competences**, with a view to the employability and professional evolution of its beneficiaries, with inter and intra-company cycles, proposed either by the teams of teacher-researchers of UT1, or built on the basis of specifications emanating from the companies and the economic sector. The FCV2A is also the institution's operator for the **Validation of Acquired Experience (VAE)**.

## HIGH-LEVEL INNOVATIVE PROGRAMS

Besides deploying **standard Bachelor's, Master's degree and PhD programs**, UT Capitole University rolls out highly innovative programs as illustrated hereafter:

- **Double degree programs** designed thanks to the collaboration of various departments. Some examples: law and economics, economics and mathematics, economics and computer science, economics and management;
- **Bachelor's degree programs** in French and Foreign law (path: law and the hispanic world) at the European School of Law;
- **English-taught Master's degree programs**;
- Dual degrees combining a degree awarded by UT Capitole and by a partner foreign university: Italy, Germany, United Kingdom, Ireland, Greece, Russia, United States and Canada;
- An advanced university diploma on offer at the Collège Supérieur de Droit (division of the Faculty of Law) which has been designed to meet the requirements of businesses and the high standards set by the juries of competitive examinations.

## VERBATIM

**CYRIL GAYSSOT, FMS MANAGING DIRECTOR, CEO OF THE NATIONAL UNION OF COMPANIES PROMOTING THE INCLUSION OF PEOPLE WITH DISABILITIES AND MEMBER OF THE EDUCATION AND UNIVERSITY LIFE COMMISSION.**

### « People with disabilities are on the frontline »

« The University is a place of recognition, a place of status and of self-development. It is also a « prescriptive », highly and sometimes hyper-regulated environment. When support is missing, the institution can stifle self-expression, thus creating inequality. People with disabilities are on the front line, clearly illustrating what an excess of norms means for people with specific needs. The time spent at Toulouse Capitole University has been an invaluable asset in my life path. I am really extremely grateful to all the men and women who are going all lengths to embody University Life on a daily basis. This is quite in line with my commitment: increasing the power to act of all the stakeholders so that Toulouse Capitole University can gradually become more « inclusive » ».

## KEY FIGURES

**64 national degrees**

**5 intermediate degrees**

**11 Professional Bachelor's degrees**

**5 Bachelor's degrees**

**35 Master's degrees**

**8 Doctorats**

**58 university diplomas and preparatory courses**

# ENHANCING STUDENTS EMPLOYABILITY

## GRADUATING FOR A JOB AND REVEALING TALENTS

Toulouse Capitole University offers each student personalized support in their educational and professional project.

The Information, Guidance and Career Service informs them on the education offer available both in France and abroad.

A specialized team provides orientation and reorientation advice and assists students in building their academic and professional careers, with a wide range of workshops and conferences. Innovative schemes such as the «Module Vie Pro» and the «Rendez-vous Pro» allow them to meet many professionals.

It also develops and implements relations with the corporate world by entering agreements fostering the development of students' internships, the animation of the Alumni network in order to maintain ongoing links with former students and to encourage new ones with potential employers.

## KEY FIGURES

## VERBATIM

**BÉNÉDICTE CAZALS,  
EX HEAD OF EMPLOYMENT MARKETING AIRBUS COMMERCIAL AIRCRAFT FRANCE**

### “Self-sufficient and hard-working students”

“We have interns and work-linked students (apprenticeship and professionalization) from Toulouse Capitole University, ranging from Bachelor's and Master's degrees to doctorates in the three Airbus departments. Their function is mostly one of support for which they use their skills in international and French law, economics, statistics, finance, marketing, human resources, communication... We have welcomed 350 UT Capitole students from 2011 to 2016.

They are not only well-trained and mature but also self-sufficient, hard-working, well-read in English and used to doing internships. They are so quick on the uptake and reliable that they can be entrusted with important tasks. Two interns are currently working in my department, a work-linked M2 in Management of human resources and an M2 in marketing management intern whom I trusted with some of the organization at Le Bourget airshow.”

# INTERNATIONAL OUTREACH

## A EUROPEAN AND INTERNATIONAL HIGHER EDUCATION PLAYER

Over all these years, UT Capitole has strived to develop worldwide academic training and research. The international diversity of the many cultural and scientific contexts on offer is a stimulating asset for both students and researchers.

Going international and taking up mobility projects is a priority: in-depth information, strong incentive, follow-up and support measures have been implemented...

Doctoral students are also encouraged to develop their research project in relation with foreign universities, or even under co-supervision.

Besides, Toulouse Capitole University has facilitated the access of foreign students to our higher education and research offer in the fields of law, economics and management by means of partnership agreements with universities abroad.

We have established courses granting UT Capitole diplomas in Greece, Vanuatu and Vietnam.

UT Capitole also offers a wide range of destinations reserved for exchange students, particularly in English-speaking countries (about 200 places) and Spanish-speaking countries (also 200 places).

Outstanding work has been accomplished so as to offer English-taught courses in law, economics and management.

### KEY FIGURES

**2 857** international students

**134** nationalities

**26** dual degrees

**512** outgoing UT Capitole students

Exchange programs:  
about **164** Erasmus agreements  
about **81** agreements with non-European countries

# A GREAT CAMPUS TO LIVE

## A STIMULATING PLACE TO WORK

Toulouse which welcomes nearly 120,000 students, ranks first among student cities in France in 2021-2022 according to the «L'Etudiant» magazine.

Toulouse Capitole University is set in the town centre, enjoying a remarkable campus with century old heritage buildings spreading along the Garonne river.

These prestigious buildings bear witness to the university history. Being one of the three French universities to own the buildings, UT Capitole is in a position to upgrade, renovate and extend its premises so as to best match the ongoing or changing activities.

## A CAMPUS CHALLENGING CULTURAL OFFER

The university boasts a far-reaching and generous cultural policy thanks to a wide, diversified offer and broad access.

This policy focuses on three priority areas:

### Staging high quality event programming

Shows, exhibitions, concerts, festivals, discounted tickets, meetings with artists: **#InspirezVous**

### Encouraging artistic performances thanks to a wide variety of workshops

Symphonic music, theatre, computer-aided music, film and digital photography, readings, choir performances, swing dancing, video creation, film reviews, stop-motion animation and screen printing: **#ExprimezVous**

### Sharing knowledge

Organization of meetings and discussions on societal challenges, attending local, national and European encounters and events: **#CultivezVous**

Easy access to an affordable cultural offer for all students - both initial and continuing education, French-speaking or not-, is one of the major features of our university thanks to the activities conducted by the **Cultural Space** together with our libraries, teaching and research staff, continuing education teams and students' associations as well as thanks to many local and regional cultural partners.

Students are encouraged to contribute to the cultural life of their campus and to get involved in the daily life of the university through associations, volunteering, or participation in the running of the university.

In order to conduct all these activities, student associations can rely on the subsidies awarded by the various departments and units of the university or by the Solidarity and Development Fund for Student Initiatives (FSDIE) managed by the Office of Student Affairs.

## VERBATIM

### JOANA PALERMO, LAWYER AND HIGH-LEVEL ATHLETE

« After being awarded the Bachelor's degree in Private law and fulfilling the first year of the Master's degree in business law with honors, I decided to enrol on the second year of the Master's degree in Finance. I passed the examination in December 2019, then the Bar exam and joined the Law School in Versailles. I am currently on an internship at a lawyers' office in Paris. As an eloquence lover, I am going to take part in the final of the Master's College moot competition. I am always ready to take up new challenges in sports too. I was a high-level canoe-kayak slalom athlete throughout my studies first as a member of the junior athletes in Pau when I was in high school and then as a member of the French team as from 2017-2018. **This twofold project helped me to live a unique and empowering experience and to push my limits day after day**; this is how I learned to never give up both in my sports and my academic journey. I won twice the high level sports athlete (SHN) prize awarded to high level athletes by the Faculty at the beginning of the academic year. Although I have decided to put aside my sports career in order to dedicate myself to my professional career, I am convinced that high level sports activities have endowed me with the necessary skills to face new challenges »

## BE PHYSICALLY ACTIVE, THINK RIGHT: PRACTICING SPORT AT UT CAPITOLE

The team of the Sports and Physical Activities Department (DAPS) offers both students and staff over 40 sports activities accessible to all, from beginners to experts in order to ensure their physical, mental and social health..

The team trains the students for sports competitive exams and coaches individuals or teams for academic sports competitions.

Top student athletes are also supported in the management of their academic and sports career.

It also facilitates sports practice well-suited for students with disabilities.

## A SUSTAINABLE CAMPUS ACCESSIBLE TO ALL

Toulouse Capitole University is committed to the sustainable development approach as defined in the frame of reference "Plan vert" (green plan), implemented by the Ministry of Higher Education to encourage universities.

We ensure that **access to all activities and premises is unrestricted**, open to the university members as well as to the general public with special needs.

The **UT Capitole Help Desk** is in charge of assisting disabled students with their academic career. The libraries have developed a specific range of services and individualized advice to users with disabilities.
